We will redeem units from your investment funds once a month to pay for the policy administration charges and mortality charges.

The **Fund Value** represents the total value of your investments to date and is the balance of all units allocated to your policy multiplied by their respective then prevailing unit price.

## **BEFORE YOU READ ANY FURTHER**

BSLI Platinum Advantage Plan is a non-participating unit-linked life insurance plan. All unit-linked life insurance plans are different from traditional insurance plans and are subject to different risk factors. The name of this plan and that of the investment funds do not in any way indicate the quality of the plan or future returns.

In this plan, the investment risk in the investment funds chosen by you is borne by you. Investment funds are subject to investment risks and unit prices may go up or down reflecting the market value of the underlying assets. Past performance is no guarantee of future results.

## YOUR PREMIUM

You choose the annual Basic Premium to invest every year for a period of five years.

You can pay in monthly, quarterly, semi-annual or annual instalments, subject to a minimum instalment payment of Rs. 2,500, Rs. 7,500, Rs. 15,000 and Rs. 25,000, respectively. For monthly instalments, two payments are required upfront at entry. Please ask your financial advisor for details about the range of convenient payment methods we offer.

You may wish to invest additional amounts to your premium as top-up premiums anytime during the policy term, except in the five years prior to maturity date; as long as all due policy premiums have been paid. The minimum top-up premium is Rs. 5,000 and your Basic Sum Assured will be automatically increased by the top-up premium being paid multiplied by:

- 125% if the attained age of the life insured is less than 45 years; or
- 110% if the attained age of the life insured is 45 years or more

Top-up premiums are not allowed during the first 3 policy years if you choose the Guaranteed Option.

## YOUR ENHANCED SUM ASSURED

Based on your insurance needs, you can increase the amount of protection by opting for Enhanced Sum Assured at inception. Enhanced Sum Assured will be paid in addition to the Basic Sum Assured under the Death Benefit prior to the maturity. You can choose any amount of Enhanced Sum Assured, subject to a minimum of Rs. 50,000. We will calculate the **Enhanced SA Premium** payable by you and this premium will purchase units in the investment fund/s chosen by you and thus augment your Fund Value.

## YOUR INVESTMENT CHOICES

Under BSLI Platinum Advantage Plan, you decide how to invest your premiums through the Self-Managed Option or Guaranteed Option.

The Self-Managed Option gives you access to 10 investment funds, complete control in how to invest your premiums and full freedom to switch from one fund to another.

The Guaranteed Option gives you an opportunity to protect your investments through our latest and newest investment fund with Guaranteed Unit Price - Platinum Advantage Fund. This option must be selected by you in the application form and all your policy premiums paid in the first three policy years will be allocated to the Platinum Advantage Fund. Policy premiums paid in the fourth policy year onwards and all top-up premiums will be allocated as per the Self-Managed Option.

## Self-Managed Option

In this investment option, you decide how to invest your premiums. We offer 10 investment funds ranging from 100% debt to 100% equity to suit your particular needs and risk appetite - Income Advantage, Assure, Protector, Builder, Enhancer, Creator, Magnifier, Maximiser, Multiplier and Super 20.

If you wish to diversify your risk, you can choose to allocate your premium in varying proportions amongst the 10 investment funds. We record your allocation instructions as per the premium allocation percentages specified in the application form. Our only requirement is that the percentage allocated to any investment fund be in increments of 5%, ranging from 5% to 100%.

Our wide range of funds allow you the flexibility to redirect future premiums and change your premium allocation percentages applicable to policy premiums and top-up premiums paid from that point onwards. Also you can switch monies from one investment fund to another at any time provided the switched amount is for at least Rs. 5,000. Switches must however be within the investment funds offered under the Self-Managed Option.

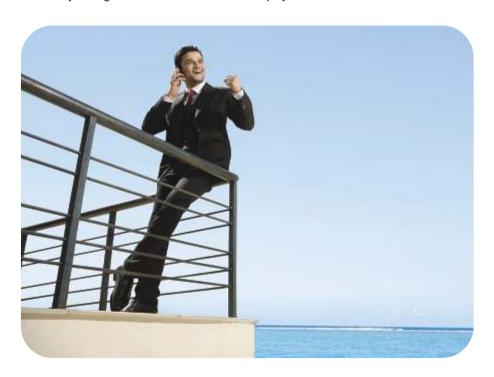

#### **Guaranteed Option**

In this investment option all your policy premiums paid in the first three policy years will be automatically allocated to the **Platinum Advantage Fund**. This is our latest and new generation investment fund with a Guaranteed Unit Price employing proprietary and sophisticated investment techniques to optimize your participation in the equity markets while safeguarding your investments.

You will be assigned the latest Platinum Advantage Fund series when your policy is issued and policy premiums paid by you during the first three policy years will be invested solely in this series if so chosen.

We open new Platinum Advantage Fund series from time to time and each series starts with a unit price of 10. For each series, we set its Guaranteed Unit Price as the highest daily unit price recorded during the first 7 years and 3 months since the series was opened.

We anticipate that more than 80% of the assets will initially be invested in equities. We will then dynamically manage the investment fund to continue optimal exposure in equities at all times. However, if the equity market declines, the assets in equities may be partially or fully reallocated in money markets, fixed income instruments and in derivatives when necessary. As a result, the future performance of Platinum Advantage Fund may be higher/lower than those of the equity market.

At maturity, all units in your Platinum Advantage Fund will be redeemed and paid to you as a Maturity Benefit. Should the unit price of the Platinum Advantage Fund be less than its Guaranteed Unit Price, we will pay you an additional amount to cover the shortfall.

We must also clarify here that it is not mandatory that once chosen, the first three years premiums have to be invested in the Platinum Advantage Fund. If you decide to stop paying your future premiums into the Platinum Advantage Fund, you have to simply send your request and all future premiums will be allocated to any fund of your choice in the Self-Managed Option. Please note that this decision cannot be reversed and all future premiums can then only be allocated to the funds in the Self-Managed Option. Any existing monies in Platinum Advantage Fund will remain in this investment fund and be protected by the Guaranteed Unit Price.

Also, if you wish to switch your monies from the Platinum Advantage Fund to any other fund, you can do so at any time and without any charges provided the switched amount is for at least Rs. 5,000. The Guaranteed Unit Price will no longer apply to the switched amount. Note that switches in to the Platinum Advantage Fund are not allowed.
